A LARGE ROBBERY .- The trunk of a passenger (a South American) was broken open on the steamer Belle of Mississippi, the night previous to her arrival at this port, and robbed of about \$8000 in money, principally gold, and about \$3000 worth of jewelry. The next morning a thorough search was made, but nothing was found of the stolen property; and, as the boat had not landed and the yawl was missing, it was supposed the thief had escaped with his booty in it.

Yesterday morning, after the boat had arrived, a man named John P. Hall went on board the Bello Air, and engaged a passage to Cincinnati, after which he handed the Clerk a wet bag, containing a quantity of daubloons, for safe keeping. In the mean time the report of the robbery reached the ears of the Clerk, and from the circumstance, he was induced to believe that the fellow was one of the robbers, and had him arrested. An examination was had and he was committed. Since which time two or three others have been arrested. About \$2000 has been recovered. The thicres secreted the money by putting it in a bag and suspending it by a rope beneath the guards in [St. Louis Republican. the water.

DEATH FROM GAS IN A WELL .- The Perry Freeman, Pa., brings us the following account of a death near Bloomfield, Pa., on the 10th inst. under the following circumstances.

At Mr. Robert Nelson's about two miles west of this borough, the deceased was engaged in sinking an old well, which had been dry for a considerable time, to find water. He had been working in the well on the day before, and in the forenoon of the day (Wednesday, the 10th inst.) m which his death occurred, and complained of the effects of the gas, finding respiration rather difficult. Having made a blast in the forenoon, after dinner he went down into the well to bring up some of the tools with which he had been working. He was on the bottom of the well but a few moments, when he told those, above to hoist him up. This they did promptly ! and when he was drawn up about ten or twelve feet, the gas overcoming him, he fell from the bucket to the bottom, out of which he was not taken until life was extinct. The deceased was an industrious, sober, reputable citizen, and has left a wife and two small children to mourn his less.

MELANCHOLY DEATH .- Stephen Brewer, Esq. the well known agent of the Northampton Woolen Manufacturing Company, mot with an untimely death on Wednesday afternoon last, under the following painful circumstances. He was out on the Connecticut River, in a pleasure boat, about a mile from the village of Northampton, Mass. with a party of friends, and happened to be standing up on the side of the beat, when the boom swung around, which knocked him into the river, and before assistance could be rendered him, he sunk to the bottom and could not be found. | Bost. Atlas.

A DELUGE.-The Kennebec Journal states that on the 8th inst, the rain fell on the Sebasticook in a perfect deluge, overflowing the low lands and cutting the roads into deep gullies, in one place cutting a channel no less than thirty feet deep. One field of grass, yet uncut, of twelve or fifteer acres, was entirely covered with mud from the up land. The water ran four or five feet deep-across the fields, carrying off fences. The damage to the crops has been very serious in the town of Sebas-

DISTRESSING ACCIDENTS .- A Mr. Warner, overseer of Mrs. Skinner, Talbot county, Md., in tending a threshing machine on Saturday last, had nis left hand so mutilated as to require amputation near the elbow. He is represented as a poor, industrious man, with a wife and nine children. On Wednesday last, a young man, while en-

gaged on the farm of Charles Waters, of Bucks county, had his arm taken off up to the elbow, while engaged in feeding a threshing machine. Iowa. - At the late election in Iowa, the ques-

tion was submitted by an act of the Territorial Legislature to the people whether they were for or against the formation of a State government .-Upon this question the Hawk-Eye (Burlington) says : no withstanding all the efforts of those who desired a convention to form a State constitution, this county gave a large majority against it; and so did every county we have heard from. The office seekers must feel bad at such a result.

YALE COLLEGE.-We learn that there were nearly 200 of the Alumni present at the late meeting. The following venerable members were present, viz: Henry Daggett, of the class of 1776; Abraham Bishop and Noah Webster, of the class of 1778; Elizur Goodrich, Jonathan Maltby, and John Noyes, of the class of 1779; Simeon Baldwin, Stephen W. Stebbins, and James Kent, of the class of 1781; David Daggett, of the class of 1783. All of these, with a single exception, are more than 80 years old. The class which graduated 50 years since, to which belonged Charles Chauncey, the father of the Philadelphia bar, and the Hon. R. M. Sherman, had a meeting this year at which half the surviving members were present. The oldest living graduate is Mr. Plumb, of the class of 1769.

The total number of persons enrolled as members of the College is about 7000; the whole number of graduates 5,200, of whom 2,716 still survive, which is a large proportion, and argues that the scholar's life is favorable to longevity. The several libraries number 50,000 volumes. On Wednesday evening Dr. Dickson of S. C. addressed the Phi Beta Kappa, on "the tendency of knowledge to promote human happiness," quite a novel theme!

The exercises of the Senior class, which numbers 105, and is the largest ever graduated, took place yesterday. Among their public performances was a Poem on Humbug, by Theodore Ranyou, of

this county.

Gerrymandering. —The following is on the rounds, as an explanation of the term Gerrymander:

"Elbridge Gerry, one of the Signers of the Declaration of Independence from Massachusetts, was character of the first Democratic Governor of that State. chosen the first Democratic Governor of that State, and during his administration the party supporting him had the districting of it to suit their own liking. They were very indiscreet in the exercise of this power, and their political opponents showed them up to the people in the following ludicrous way :-Maps of the State, divided into counties, and these made into districts on the Gerry principle, were struck off and painted so as to represent animals called 'Gerrymanders.' It overthrew the Gerry party entirely, and should be a warning to all subsequent legislators, not to abuse the power granted them in executing this impostant and delicate trust."

CANADIAN RIOT .- We very much regret to learn that theref were some serious disturbances yesterday among the workmen employed on the Beauharnois Canal; and that it was considered necessary to despatch a troop of Hussars from Laprairie to assist in preserving the peace. Something of this kind had been already anticipated and we do sincerely trust that prompt and energetic measures will be taken not merely to arrest, but to prevent these disgraceful outrages, which seem to be the almost inevitable consequence of the bringing together a large body of hot-headed and unruly spirits. "New-York, August 16, 1942.

"Messes Sands—Gentlemen: Owing to you a debt which money cannot pay, I am induced to make a public acknowled gement of the benefit I have derived from your (to me) invaluable preparation of Sarsaparilla. I was sorely afflicted with a terrible scrofulous disease, hereditary in our family, which commenced on my neck, and, continuing to spread soon reached my cars, running, into my head and pread, soon reached my ears, running into my head, and attended all over my face, neck, arms and lower extremities. became a disgusting object to look upon. At times my listress was so great that I was unable to sleep or lie down. distress was so great that I was unable to sleep or lie down, and the disease extending into my ears, seriously affected my hearing. My face was one continuous sore, from which a discharge of matter and water kept constantly ozing out. People avoided me, supposing I had the small por, or some other infectious disease, and I was consequently obliged to relinquish my business. Notwithstanding I had the best medical advice and tried different plans of treatment, the disease continued to grew worse, until I gave up in despair. Fortunately for me, I chanced to fall in with a lady on board a railroad car while raveling for my health, who informed me that her son was at one time in as bad a condition as I was, and that by using your Sarsaparilla he was speedly cured. I immediately procured the article and commenced using it, and now, after having taken less than six bottles, I am well and able to attend tomy business. I send menced using it, and now, after having taken less than six bottles, I am well and able to attend tomy business. I send you this statement as an act of justice, only hoping it may induce the afflicted to make use of the right medicine, and thereby save themselves much suffering and expense.—

FROM MRS. NANSCAWEN. PROM MRS. NANSCAWEN.

Doct. Thomson—Sir: I have been in a feeble state of health for the past eight years, having been afflicted with a bad cough, pain in the side and stomach, and other female weaknesses too numerous to mention. I have at various times been under the attendance of ten regular Physicians, several of whom have given me up as incurable. I have continued to linger in a feeble state of health until a few days past, when I put myself under the care of Dr. Thomson, No. 343 Broome street, and at this date consider myself in a better state of health than for the past eight years. I do not feel any pain, distress, or inconvenience, from any do not feel any pain, distress, or inconvenience, from any disease whatever. I am surprised when I think of the rapidity with which I have improved while under his care. I have also witnessed with surprise the rapid improvement of several other patients, whose diseases appeared as obsti-nate as my own, under the Doctor's care.
